

David R. Reagan, M.D., Ph.D.

Session: Governor Haslam's Plan for Opioid Prescribing

David R. Reagan, M.D., Ph.D., is the Chief Medical Officer for the Tennessee Department of Health. In this position, which he has held since 2012, and working with incredible colleagues, Reagan oversees Public Health services in 89 counties, Communicable and Environmental Diseases and Emergency Preparedness, Health Licensure and Regulation, two state laboratories, Informatics and Analytics, and Quality Improvement. Additionally, he serves as an advisor to the commissioner on matters of health policy and strategic planning.

Reagan previously served as chief of staff for the Veterans Affairs Medical Center in Mountain Home, Tenn. He served as associate dean for veterans affairs and clinical professor of medicine in the Department of Internal Medicine at James H. Quillen College of Medicine at East Tennessee State University. Reagan has also served as ambulatory services manager at Mid-South VA Healthcare Network in Nashville.

Reagan earned his medical degree and a PhD in organic chemistry from Vanderbilt University, and holds a bachelor's degree in chemistry and physics from East Tennessee State University, where he graduated magna cum laude. He completed an internal medicine residency at Vanderbilt and a fellowship in clinical epidemiology and infectious diseases at the University of Iowa Hospitals and Clinics in Iowa City.
